

ANACONDA

WHEELED CONVEYORS

Anaconda's radial wheel conveyors

are designed to minimise operating costs whilst maximising stockpile capacity. Exceptional build quality and rapid set-up time go hand in hand with competitive pricing and versatility.

Anaconda's radial wheeled conveyors are exceptionally well priced and come with hydraulic coupling as standard. The cost of running the stockpiles is greatly reduced as the conveyors run off the hydraulic system and power from the main crushing/screening plant. Operators are able to run the plant as a single person set-up as there is less need to constantly remove material from under the belts. The radial wheel drive increases the overall capacity of material stockpiled at any given time

PRODUCTS INCLUDE:

- ST4026 – 40ft long (12m) with 26" (650mm) wide belt
- ST4032 – 40ft long (12m) with 32" (800mm) wide belt
- ST5032 – 50ft long (15m) with 32" (800mm) wide belt
- ST5036 – 50ft long (15m) with 36" (900mm) wide belt
- ST6032 – 60ft long (18m) with 32" (800mm) wide belt
- ST6036 – 60ft long (18m) with 36" (900mm) wide belt
- ST6042 – 60ft long (18m) with 42" (1050mm) wide belt
- ST8032 – 80ft long (24m) with 32" (800mm) wide belt
- ST8036 – 80ft long (24m) with 36" (900mm) wide belt
- ST8042 – 80ft long (24m) with 42" (1050mm) wide belt

OPTIONS

- Diesel powerunit - CAT or Deutz
- Electric drive
- Belt upgrades (3 Ply, 4 Ply, Chevron)
