

# EvoQuip enter New Zealand

Mobile Screening & Crushing (NZ) Ltd has been appointed as the official distributor of Terex EvoQuip crushing and screening equipment servicing the needs of customers in New Zealand.

Andy Meikle, Mobile Screening & Crushing NZ director, says, "Our experience in the crushing and screening industry means that our customers can count on a strong focus on customer support, one of our core principles."

"Extensive industry experience also means that Mobile Screening & Crushing has strong relationships with customers."

In addition to sales opportunities, Mobile Screening & Crushing will provide parts, service, and warranty support for EvoQuip equipment by factory-trained technicians. Financing options will also be available to qualified customers.

Martin Conway, EvoQuip international sales manager, says, "We are delighted to welcome Mobile Screening & Crushing NZ to EvoQuip. With their vast local industry knowledge and commitment to customer support, I'm confident that EvoQuip will thrive in New Zealand."

**Declan North (Terex Financial), Martin Conway (EvoQuip Intl Sales Manager), Andy Meikle (MSC), John Garrison (Terex CEO), and Matt Dickson (EvoQuip)**

The EvoQuip range starts with the Bison 35 crusher capable of outputting up to 30 tonnes per hour and goes up to the Cobra 260 crusher said to be capable of outputting 250 tonnes per hour.

"The compact size of the EvoQuip machines will overcome transport issues

and are capable of processing waste from demolition projects, screen top soil or crush material from worn driveways and brick walls," Andy says.

EvoQuip products are manufactured in Northern Ireland. ■
